

NEHA BIBI

S U M M A R Y

Motivated Software Engineering student at Iqra University with a basic understanding of programming, databases, and software development concepts. During my academic studies, I have learned and worked with various tools and frameworks and gained practical experience through small projects. My university education has helped me improve my problem-solving, logical thinking, and technical skills. I want to use my knowledge in real-world work, gain industry experience, and continue improving my skills to build a successful career in software development.
